

Birding Madrid and Castille-La Mancha: Species List Supplement

Date: 27th August–2nd Sept 2016

In addition to the two day trip [1 -2 September in Castille], I spent many hours birding in and around the edge of Madrid. As I have often said there are several superb areas around the city environs, especially **Parc Sureste**, **Caso de Campo** and **El Pardo**. Many of the species are to be found at multiple sites.
